THE WOLFGANG FAMILY
BY LUCA NICHETTO

THE WOLFGANG FAMILY
BY LUCA NICHETTO

The Wolfgang chair is the first project that was entirely conceived by the collaboration between the Italian designer Luca Nichetto and the Swedish design studio Wolfgang. The chair represents a tribute to the hospitality Nichetto enjoys in Sweden and a sign of optimism for his new "Scandinavian life". Also the curved wood used for the chair's seat and back rest, which works in perfect harmony with the solid wood of the legs and supporting frame, is an explicit reference to Scandinavian design.

The Wolfgang collection consists of a line of chairs that comes either in a natural wood or entirely varnished version – with a palette of colours that is inspired by mural paintings – plain or padded (seat or seat and back rest).

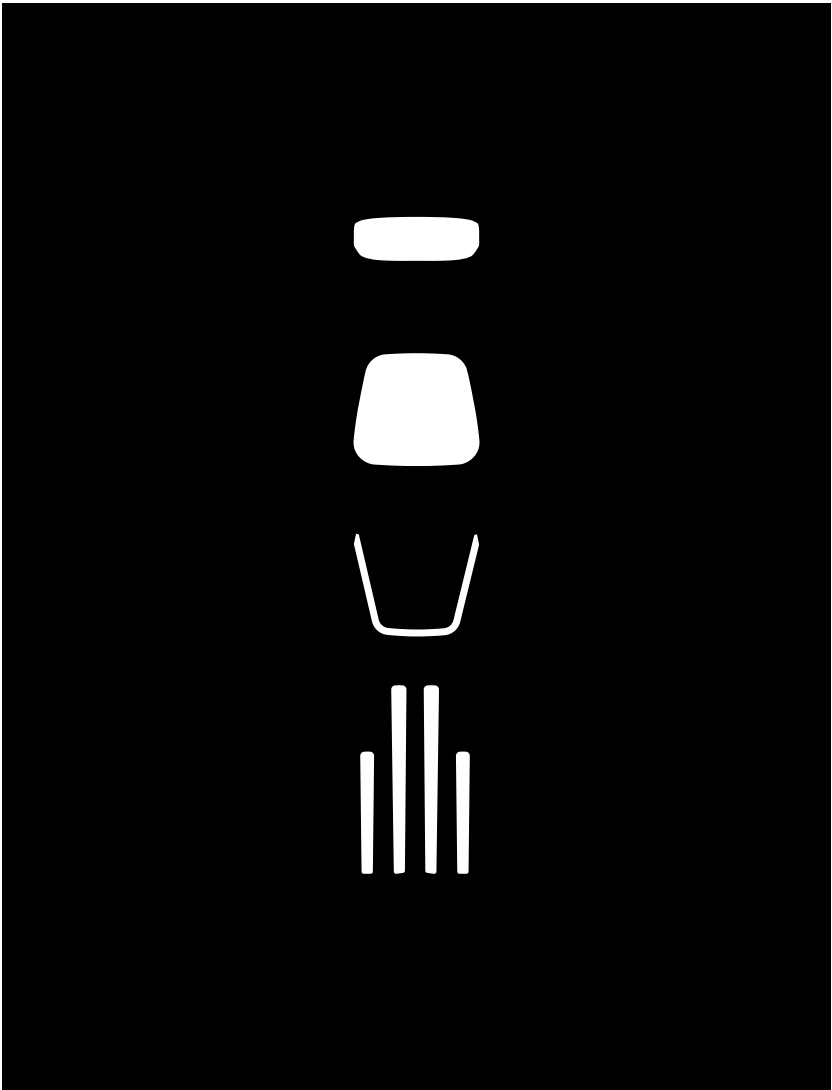

The collection has now been enriched with new elements: a padded lounge chair, coffee tables and side tables in two sizes and a bar table, which were designed according to the same design and finish philosophy.

La sedia Wolfgang è il primo progetto che è stato interamente concepito dalla collaborazione tra il designer Luca Nichetto italiana e lo svedese studio di design Wolfgang. La sedia rappresenta un omaggio al Nichetto ospitalità gode in Svezia e un segno di ottimismo per la sua nuova "vita scandinava". Anche il legno curvato utilizzata per il sedile della sedia e lo schienale, che lavora in perfetta armonia con il legno massello delle gambe e telaio di sostegno, è un riferimento esplicito al design scandinavo.

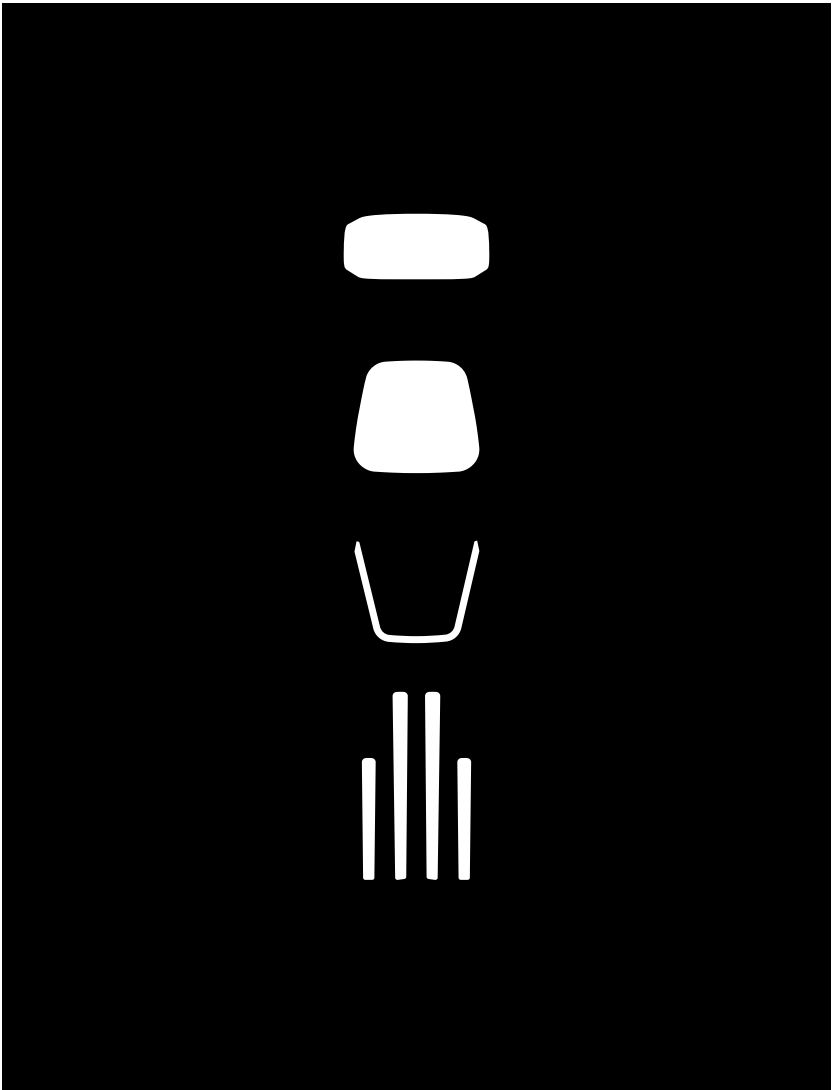

Wolfgang La collezione consiste in una linea di sedie che si sia in legno naturale o una versione interamente verniciato – con una tavolozza di colori che si ispira ai dipinti murali – normale o imbottita (sede o sede e schienale).

La collezione è stata arricchita di nuovi elementi: una poltrona imbottita, tavolini e tavolini in due dimensioni e un tavolino da bar, che sono stati progettati secondo lo stesso design e la filosofia finitura.
